

Marcelo Druck

Environmental Consultant,
Assessments and Approvals

Marcelo is an Environmental Consultant with the Assessments and Approvals team in JBS&G's Perth office. Marcelo has completed a Bachelor of Science and Master in Ecologically Sustainable Development. He has worked as a project manager and environmental consultant for over 10 years and is experienced in the mining, land development, environmental and infrastructure sectors.

He has strong expertise in compliance, assessment, monitoring and approval processes; and has provided support and advice across the resources sector, including iron ore. His experience encompasses projects throughout most geographic regions of Western Australia and internationally.

Responsible for project management, client liaison, government negotiations, stakeholder engagement, coordination of technical specialists, and contributing author of approvals documentation.
